**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am glad I have Sonic in my area to keep me connected to the productive modern age and that they put people ahead of business. The internet at this point isnt a luxury, but pillar of a productive America. It needs to be protected and made accessible for everyone. I believe that it is in the best interest of America and the common American that we allow compitition in the marketplace. Further more, not only should it be allowed but it needs to be encouraged for the well being of our system of economy and the majority of Americans. So, lets stop drinking out of our silly sized coffee mugs and saying everything is good but in the fine print is only good for a small minority of wealth in America. Things are not good...and what Im saying is not hippy nonsenseThings need to improve for the common American and those living in America.

A patriot,

Peter Truong
